

There are many reasons you might want to share photos online. Here are some of them.

- ✓ Follow QR Code 1 to see a video about why you might want to share them online
- ✓ Follow QR Code 2 to access Flickr. Unless you already have an account with Yahoo! and know the password, you'll need to set one up

Code 1

- ✓ When you have an account, you can search for a picture. Click on the search

Code 2

- ✓ Type in a key word (e.g. **Music**)
  - ✓ Browse the photos to find what you want
  - ✓ If you're confident doing searches, you can also add exact phrases to your search by putting them in quotes (e.g. "**Folk Music**") or exclude words from the search by putting a hyphen/dash first (e.g. **-Jazz**)

Next, you can upload your own photo. You'll need to take a photo and have it on your computer or device for this to work.

- ✓ Click "Upload" or the  (or similar) symbol
- ✓ Locate the photo to upload
- ✓ Add some "tags" (key words) associated with the photo
- ✓ Decide if you want it to be private or public
