

As well as buying from new, you can also get used things online.

Be aware that quality and reliability varies, so always be careful.

Ebay

Ebay started as an auction site, but now works as a way for small mail-order businesses, including private individuals, to buy and sell. It works in two different ways:

1. You bid an amount on the item and, if the reserve (the minimum price the seller is willing to sell it for) is met and no one bids higher than you, you get the item
2. You can “buy it now” and pay a fixed amount to not bother with the auction and bidding process

Follow QR code 1 to get to Ebay and explore it.

Code 2

Gumtree

Gumtree works like the classified section of a newspaper. Have a think about the benefits of using this site, but also the dangers that could be involved. Check out what’s listed near you via QR code 2

Freecycle

Freecycle allows you to share items you no longer need that would otherwise be sent to a tip. You can post things you want, or things you want to get rid of, to a group based around your local area. Follow QR code 3 to find what’s being offered near you.
